Specification

The amendment filed 5/24/07 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure follows. In the marked-up specification see: In page 1, paragraph 2 elements g and h;

Element h in paragraph 8 in page 3; and

Element h in paragraph 27 in page 8.

Applicant is required to cancel the new matter in the reply to this Office Action.

It is noted to applicant that the marked specification does not match with un-marked specification. Applicant should make sure that the un-marked specification (the amended specification showing the changes without underlines or cross out sections) corresponds to the marked-up specification. For example, paragraph 1 of the marked up specification shows elements a through I but the un-marked specification only show elements a-f.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1731

Claims 13-14 recite a catalog of parts without providing a structural relationship among them. While the claims provide structural relationship (a structural link) between the bowl piece and draw piece, it fails to provide a structural relationship among the claimed smoking cavity, bore and storage chamber. It is unclear how the smoking cavity, bore and storage chamber are structurally linked to the bowl and/or the draw piece.

Allowable Subject Matter

Claims 13-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1731

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
